implement the programme under the State Sector Minimum Needs Programme (MNP). The Central Government only supplements the efforts of the States by providing funds under Accelerated Rural Water Supply Programme (ARWSP). Powers have been delegated to the States to plan, sanction and implement their individual water supply schemes. All the States have been requested to prepare action plans to provide drinking water to all rural habitations in the next five years. This objective could be achieved, subject to availability of funds. Similarly, 100% urban population is targeted to be provided with safe drinking water facilities in the Ninth Plan period, subject to availability of funds.
